TITLE _____

LIMITATIONS ON THE USE OF A SPECIAL HAULING PERMIT

1. The granting of a permit does not guarantee that the load described can be moved without damage to the pavement or structures, although the permit is granted on the assumption that the load can be moved without damage based on the best information available.
2. Permittee will be held liable for any damage caused by the movement. The County assumes no responsibility for damage to the permittee's equipment or load being moved due to any such failure, the permittee agrees to compensate Mahoning County for any damage to roadway or road structure and also to hold the County harmless from all claims, damages or proceedings of any kind and from all responsibility for personal injury or property damages (public or private) caused directly or indirectly as a result of the transportation of said vehicle (s) or object (s).
3. The applicant must file a bond or certificate of his liability insurance to cover the provisions of paragraph two.
4. The permit shall be in the possession of the driver at all times, during the progress of transportation and will be shown on demand to any police officer, state highway patrolman, or employee of the state highway department.
5. The permission granted restricts the movement of the vehicle (s) or object (s) to the highways specified, between the points designated and within the time allotted (excluding crane related hauling).
6. No vehicle (s) or object (s) in excess of the legal limits prescribed by law shall be permitted on the highway on Saturdays, Sundays or during the period beginning at 12 noon on the day preceding and continuing until sunrise on the day following legal holidays (excluding crane related hauling).
7. Movements under a special hauling permit shall be made during daylight hours only and in such a manner to impede the least possible extent the normal highway traffic (excluding crane related hauling).
8. No Vehicle (s) or object (s) being transported under special highway permits shall be left parked on the roadway either day or night except in case of emergency, in which case adequate protection shall be provided for the traveling public. The vehicle (s) shall not be loaded or unloaded within the limits of the highway.
9. The operator of the vehicle must comply with all laws, rules, or regulations covering the movement of traffic over highways and streets.
10. All construction equipment and other machinery shall have attached thereto a plate showing the manufacturers name and model.
11. A permit is void at any time road, weather or traffic conditions make travel unsafe.
12. Reductions in legal weight posted on roadways or bridges must be obeyed.
13. A permit will not be issued for built up loads that are divisible into legal loads.
14. Oversize or overweight loads shall be operated or moved at such speeds and in such manner as to cause a minimum of interference with other traffic and minimum impact stresses on structures and pavements. No such movement is to exceed 40 miles per hour at any time, except upon that portion of a highway where the posted minimum speed is in excess of 40 miles per hour. The allowable maximum then becomes equivalent to the minimum posted speed.
15. Loads having extremely large dimensions shall require additional protective measures when necessary for the safeguarding of other traffic. Due regard shall be taken of traffic in both directions and every possible effort shall be made to prevent traffic congestion. One or more flagmen or a pilot car may be required.
16. Non-compliance with the general, or special provisions of a permit, exceeding weights or dimensions granted, or operating on dates or upon highways other than assigned shall render the permit null and void and the operator of the vehicle subject to arrest, as provided in sections 5577.02 through 5577.05 inclusive of the Revised Code of Ohio.
17. Permit authorizes use on County roadways within the specified hauling route only. Permittee is responsible for obtaining any additional permits for hauling on local, township or state roadways, as applicable.

SPECIAL PROVISIONS

- Display clean red flags not less than 10" square and fastened to staffs of sufficient length so as to permit the flags to move freely of any obstructions, located as follows: One at each end of the front bumper at a 45 degree angle, one at each of the four corners of the vehicle or load, and if there is any part of the load wider, one at the widest point on either side.
- Flagman to flag traffic on turning movements or at any time any part of the vehicle or load is over the center line of the highway.
- Flagman to accompany operator to protect traffic.
- Flagman to ride on traffic side of the load.
- Flagman to travel in lead vehicle, sufficiently ahead to warn approaching traffic.
- Flagman must be ahead to warn approaching traffic, when sight distance is limited to 500 feet or less.
- Escort vehicle with proper signs attached to proceed 500' in advance of the vehicle or load.
- Escort vehicle with proper signs attached to follow 500' back of the vehicle or load.
- Long Load signs to be attached to front and rear of vehicle or load.
- Wide load signs to be attached to front and rear of vehicle or load.
- Driver of escort vehicle to act as flagman when needed.

Check mark indicates special provision (s) that apply to this permit.

TERMINATION OF PERMIT AND RELEASE OF ROAD BOND

Upon completion of work, contact the Permit Supervisor, Mr. Brad Miller at 330-301-9201 or 330-799-1581 to perform a final inspection and to assess any damages along the haul route specified on this permit. This inspection must be performed and any damages must be repaired to the satisfaction of the County Engineer prior to termination of the permit and release of the bond.
